(54) Title: MENU SYSTEM

(57) Abstract: A menu system (1) includes a gaming server (2), a display means (5) for displaying game data to a number of available casino games playable by a player at an online casino. The display means is switchable between an overview mode and a detailed mode. The game data relating to any game that is displayed in the detailed mode is a superset of corresponding game data displayed for the same game in the overview mode, and the available games for which game data is displayed in the overview mode being a subset of the available games for which game data is displayed in the detailed mode.
